## EXPRESSIONS OF GRATITUDE

"Thank you for the prayers, visits and the calls. We truly appreciate our church family. In Christian love," Kyle and family

"Several years ago, our prayers changed from finding a cure for Erin to simply finding a diagnosis. Those prayers were finally answered last week when a research physician at Texas Children's Hospital diagnosed her with histiocytosis. While this "off the beaten path" condition usually occurs in children, adults can develop it also. So finally the medical community can try to at least stop the progression, and if we are really, really blessed, she might be able to regain a little of her function. While we would be ecstatic with a little recovery, we will be thrilled with stopping this disease before she becomes bedridden. So I wanted to keep you abreast of what is before us, a year of clinical trials, and thank you for your prayers and support for our girl." David & Colleen West
